

ICU UPDATE THURSDAY JUNE 2		Riverbank Room 7 & 8	
TIME	SESSION		
7:45-8:15	Registrations Open		
8:15-8:30	WELCOME to the 2016 ICU Update Associate Professor Jeremy Cohen		
8:30-10:00	SESSION 1		
8:30-9:15	Update on Resuscitation Presenter: Dr Stephen Bernard		
9:15-10:00	Update on Antimicrobial Use Presenter: Associate Professor Andrew Udy		
10:00 – 10:20	MORNING TEA		
10:20-11:50	SESSION 2		
10:20-11:05	Update on Non Invasive Ventilation Presenter: Dr Ross Freebairn		
11:05– 11:50	Update on ECHO Presenter: Professor Anthony Mclean		
11:50-12:30	LUNCH		
12:30-14:00	SESSION 3		
12:30-13:15	Update on management of delirium Presenter: Associate Professor Ian Seppelt		
13:15-14:00	An Intensivist in Africa: managing an epidemic Presenter: Associate Professor Scott Parkes		
14:00– 14:30	AFTERNOON TEA		
14:30– 16:30	SESSION 4: WORKSHOPS		
	<p>Workshop 1 Complex Communication in the ICU: A masterclass for challenging interactions Facilitator: Associate Professor Charlie Corke</p> <p><i>Room: Riverbank 7 & 8</i></p>	<p>Workshop 2 Critical Care Paediatrics for Adult Intensivists: <i>Maybe they are just 'small adults' after all?</i></p> <p>Facilitator: Dr Marino Festa</p> <p><i>Room: Riverbank 6</i></p>	<p>Workshop 3 Integrating echo/ultrasound into management of the critically ill patient.</p> <p>Facilitator: Associate Professor Andrew Hilton</p> <p><i>Room: Riverbank 5</i></p>

Workshop 1: Complex Communication in the ICU: A masterclass for challenging interactions

Discussions and role-plays in this interactive master-class will provide attendees with advanced communication skills to:

- Manage unrealistic hope
- Deal with indecision

During this workshop participants will consider strategies to address these common and difficult problems. Then by working with actors, participants will refine these new communication strategies. At the conclusion of this workshop participants will have acquired new and important communication strategies to use in their practice and to teach others.

Workshop 2: Critical Care Paediatrics for Adult Intensivists: *Maybe they are just 'small adults' after all?*

How I do it! This interaction session will be facilitated by PICU experts who will share their approach to common everyday PICU challenges. Join us for an informative workshop and learn skills that you simply won't get from a text book.

Workshop 3: Integrating echo/ultrasound into management of the critically ill patient.

Interactive workshop where participants will examine real case examples emphasising the interpretation of echo/ultrasound findings in the context of ICU illness and supports.

Participants with each patient example will be expected to:

- a. Discuss relevant echo/ultrasound findings
- b. Propose a provisional management plan based on these findings
- c. If relevant, review subsequent imaging and re-evaluate diagnosis and management.

Thank you to our Platinum Sponsors of the ICU Update and ASM
